Short canyon between Chamonix and Martigny. Do not go in there in summer, there is a huge water catchment that can open at any time (even in the fall, but once it gets cold the risks are no longer so high). (machine translated)

**Hydrology:** (machine translated)
Attention, very large water catchment above.

**Tour:** (machine translated)
First a few "normal" rappels, and a few jumps. Then it gets very dark as you go under the big blocks, sometimes the jump goes into the dark. After that, not quite as continuous.

Replaced a few anchors. Cool tour, but not without danger because of the water catchment. (machine translated)
