| Summary: (machine translated) Lush vegetated forest canyon, Is also walked commercially. | | |
| Hydrology: | | |
| Access: (machine translated) From Lleida, drive north on the C-13 via Tremp to Pobla de Segur (100 km to this point). Here, at the traffic circle, before crossing the river Flamisell, turn left and continue on the N-260 to Senterada (10 km). At the entrance to the town, turn right into Vall Fosca, on the L-503 and after 13 km turn right up towards Mont-Ros. Where the road crosses the Rio Les Espones, leave one car on the right in the open space and continue with the other up to Mont-Ros, turning left at the crossroads before the village, the road leads to the upper edge of the village. Here you continue left (northwest) and then park the car in the 2nd right turn. | | |
| Approach: (machine translated) In the mentioned bend, go up on a barely recognizable dirt road, later across meadows in a northerly direction until you reach a barn. Pass it on the right, continue to a path that crosses the slope over a water pipe (not visible) and climbs steadily towards the streambed (approx. 300 m). The path turns slightly to the right. Before it starts to climb a little more, go down to the left to the streambed of the Espones. | | |
| Tour: (machine translated) Only a few small rappels, but some tricky downclimbs when there is a good flow of water. | | |
| Return: (machine translated) At the small dam on the left directly to the road. | | |
