<b>Summary:</b> (machine translated) Long and varied rappel canyon.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From the exit of the A27, which can also be approached directly from Belluno, take the SS50 along the Piave River upwards in a northerly direction. Passing through Longarone and Pieve di Cadore we reach Lozzi di Cadore and then Tre Ponti. About 200m before the bridge over the Piave turn right onto the SP616 and then immediately left again under the SS52 and over the Piave. After about 1 km the tea road ends and we park our car here (P). \If we have a second car, we continue along the road for about 1300 m and leave the car for the exit at the end of the road at Casera Molenies di Sopra (P2).		
<b>Approach:</b> (machine translated) From the parking lot P we follow the trail n. 275 in northern direction until Rio Casaviei (1460m altitude - entry).		
<b>Tour:</b> (machine translated) Sequence of a total of 36 rappels of different heights, runs and passages of rappel. After the highest rappel of 40m, 4 more follow, the last of which is 20m high. Here we see a small Madonna on the left. It shows us that now is time to go out on a path to the right.		
<b>Return:</b> (machine translated) The path leads us to the car.
