<b>Specialities:</b>		
<b>Gear:</b> Ropes: 2x 45m		
<b>Summary:</b> (machine translated) Beautiful granite canyon with wonderful washouts, partly quite aquatic , with 5 rappels, some jumps and slides, at higher water levels the first C22 can be very demanding.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Biasca drive in the direction of Bellinzona. At the main road near Iragna turn right and park at the large parking lot at the beginning of the village (sports field).		
<b>Approach:</b> (machine translated) From the parking lot walk in the direction of the village center/bridge. Then left along the creek --> after the barrier you can see the last rappel (water level control) --> on the left side you pass the material ropeway --> hiking trail up past the back of the houses --> hiking trail goes over small stone bridge --> signposts --> small House --> stone steps with railing --> iron gate --> chapel --> leave hiking trail at the right bend at approx. 450Hm --> left narrow path down to the creek --> right past the rock (put on harness for rock) --> ahead to the tree --> from the tree 6m rappel (entry 420Hm).		
<b>Tour:</b> (machine translated) From the beginning you already have a very impressive view --> the first small pool you can slide (depending on gravel or stones) --> then follows immediately the approx. 40m waterfall (very slippery and sharp edges). This place can also be rappelled left 45m (!) outside the water (reachable via rope traverse) --> two short slides (flat) --> C22m downclimb (can also be rappelled outside the water) --> downclimb --> stone bridge --> short rappel or jump (5m) --> narrow channel (! Slippery) --> downclimb right about 20m (final part can also be rappelled) --> downclimb --> 2m downclimb right --> jump 6m (or rappel) --> final waterfall about 15m (very slippery, sharp edge) --> depending on the depth of the gump the last 2 places can also be rappelled (also possibility to rappel).		
<b>Return:</b> (machine translated) Exit directly at the starting point (who wants to jump a bit can do this at the end right of the rock (swimming possibility)).

A lot less jumping and sliding than the Intermedio. Still a few slippery granite pools to walrus out of! Again, can imagine it would be spicy at higher flows, and you may want a belay - you certainly wouldn't want to try to climb out with a water filled backpack! I completed both Intermedio and Inferior car to car in about 2hours 15 minutes, the hardest part being heaving around a stupid big rocksnake backpack with 100m of 9mm in it! The abseils, slides and jumps were all obvious and posed no problem :) Reference picture for flows.
