<b>Summary:</b> (machine translated) Varied rappel canyon  Description Superior is missing.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Domodossola on the orographic left bank road above Torr. Bogna up to Cisore (about 3 km from the center of Domodossola). At the road junction turn left to the large square with wooden huts and garbage (2006). Park here.		
<b>Approach:</b> (machine translated) From the parking lot back to the main road, on it about 200 m left to follow (510 m a.s.l.) the mule track right off in the direction WNW uphill (white-red marking). At the junction right (left "MTB"). We go uphill, from the left below comes a path with white-red markings, we continue uphill to about 650 m above sea level. Here at a large cairn continue on the ridge uphill to \netwa 750m above sea level. Here keep to the right and over a rocky, but tree-covered flank down into the path, which we reach a few meters above the C 30. \nYou can also enter at altitude 625 m a.s.l., if you do not continue uphill at the large cairn, but descend essentially horizontally, finally steeply down into the streambed.		
<b>Tour:</b> (machine translated) If you want to go Rio Deseno from the top (1375 m a.s.l.), you have 3 hours of ascent and 11 hours of descent ahead of you. Thus, the exploration of an intermediate entrance has offered itself. Even so, it is still a day trip with over 20 rappel.		
<b>Return:</b> (machine translated) At the slide brake downclimb right and on the slope crossing the stream right up to the road, cross it offset to the right and through the vineyards up to Cisore.
