However, we do not go up to the right into the city here, but drive along the orographic. right bank of El Flamisell on the N-260 in the direction NNW to Senterada. We continue in the direction of Pont de Suert. 17.6 km after Senterada we reach the village of Viu de Llevata. Here we park the car in the designated area.		
<b>Approach:</b> (machine translated) In the northern part of the village begins a marked path that leads in a wide right turn down to the streambed (entry).		
<b>Tour:</b> (machine translated) Nice narrows, smaller rappels, possible jumps and runs in between.		
<b>Return:</b> (machine translated) We get off after the last beautiful cascade (C 12). At an SOS sign (emergency phone) begins the path that leads us back up the orographic. left slope of the stream to the road and the car.

Automatisch importiert von Descente-Canyon.com für Canyon Viu de Llevata DC-. Ça coule mais l'eau était trouble dans la première partie, à cause du passage j'imagine (un groupe de 10 devant). Pas gênant mais moins joli. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2754/observations.html>)

Le Viu a beaucoup d'eau et il devient très intéressant à faire. Cependant, l'eau était très très froide, mais va vite se réchauffer les jours à venir. Everything tip top. All jumps doable. We skipped the 10m jump, but it should be possible if you jump out far enough. Very narrow and beautiful in places. Water very cold. Gets better and better towards the exit. There is an SOS box at the exit if you need help (really a great idea!). (machine translated)
