Summary: (machine translated) Gorge swimming in great scenic surroundings. Take a folded air mattress in a nylon bag and the "hydrospeed" is ready.		
Hydrology:		
Access: (machine translated) From Cannes on the N 85 - Route Napoléon - via Grasse to Castellane (57 km); from Castellane on the D 952 in the direction of Palud, Moustier 17 km until the road goes down to the left to the parking Couloir Samson. For the time being, continue via Palud sur Verdon, there turn south on the D 23 and go to La Maline (8 km). There park the "lower" vehicle (risk of burglary).\nWith the other back to the parking Couloir Samson and park there (increased risk of burglary).		
Approach: (machine translated) From the parking lot to the mouth of the Baou in the Verdon and there "boat in".		
Tour: (machine translated) Only a few times üngemütliches "Nabada" in the Verdon. Seemingly dangerous passages can usually be avoided. Watch out for obstacles under water, e.g. trees lying in the water.\nYou can also manage with one vehicle if you use the charming footpath from Maline to the parking lot Couloir Samson along the Verdon as an approach route - take a flashlight for the tunnel at the exit!		
Return: (machine translated) After the sharp right bend and the confluence of the Artuby there, continue 1.6 km in the Verdon and then out to the right and up to the footpath that goes up to La Maline (45 min.). Last exit point of the upper part - also up to La Maline - would be at the new suspension bridge.
