Summary: (machine translated) Varied conglomerate rappel canyon		
Hydrology:		
Access: (machine translated) From Barbastro in the direction of Alquézar. After about 20 km on the newly extended A 1232, turn right at the junction at the Rio Vero bridge (beyond the Camping Rio Vero bridge) and continue on the A 2205 via Colungo in the direction of Arcusa, Ainsa. The road now winds its way northwards. Cross the Bco Palomeras Fornocal and a few hundred meters further on you will reach the Puente de las Gargantas over the Rio Fornocal. Park your car here.		
Approach: (machine translated) On the east side of the bridge, a trail first heads north towards the edge of the Sarratana. It soon turns to the east and leads along the edge of the conglomerate canyon, rising only imperceptibly almost to the end of the valley. After crossing a small stream channel, it then descends to the entry point.		
Tour: (machine translated) First "Gumpenhüpfen", then rappel, partly in the "Souterrain".		
Return: (machine translated) After emerging from the last part, which is almost underground, you reach the Rio Fornocal after a few meters and follow it downhill under the road bridge high above. About 70m after the bridge, a track on the right, initially crossing an old concrete water pipe, climbs steeply up to the bridge (if in doubt, keep to the right). Take the same ascent after the Fornocal and the Palomeras Fornocal.

Automatisch importiert von Descente-Canyon.com für Canyon Sarratanas Un filet d'eau fraîche. Des vasques limpides. Cela change de l'été. On peut remercier les grosses pluies de septembre et octobre 2024 (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2824/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Sarratanas Sec à cette époque mais qql vasques obligatoires (eau jusqu'à la taille). Fait avec des enfants (7/9ans)... Mieux vaut qu'ils soient à l'aise en grimpe. Qql passages d'estrechos évités via le conglo qui adhère sous les pieds. Il doit être magnifique en eau ! 2024-05-12 | System User | |📖|📌|🌊 Dry |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Sarratanas Beau parcours très sculpté et qui se referme vers la fin, mais avec un bassin versant minuscule à faire vraiment juste après la pluie si on veut du débit. Très belle marche d'approche mais attention avec les pierres instables du conglo. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2824/observations.html>)

2024-05-12 | System User | |📖|📌|🌊 Dry |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Sarratanas Il était en petit filet sur la fin. Très beau canyon ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2824/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Sarratanas On est arrivé au parking avant l'orage, canyon sec. Une demi heure de forte pluie : gros débit. On fait la marche d'approche, petit filet au départ puis débit correct dans l'étroit et sec à la fin du chaos (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2824/observations.html>)
