After the village of Daluis, the road rises sharply to cross the canyon Gorge de Daluis at 100 to 200 m above the Var wild and romantic. About 3 km after the village, a side stream (the Bertheou) is crossed on a high brick bridge (signs "Pont de Bertheou"). Park here.		
Approach: (machine translated) A horizontal trail begins at the north end of the bridge and is followed upstream (northwest) for 10 min to the entry (at a fork, take the left downhill trail).		
Tour: (machine translated) With about 10 small rappels in scenic terrain, this is a nice canyon that is also suitable for beginners.		
Return: (machine translated) From the mouth of the Bertheou, wade down the valley for about 100 m in the Var until a path becomes visible behind a terrain edge (large cairn), which leads back up the flank to the road. Take the road up to the right to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Berthéou On débute dans le calcaire avec pas mal d'arbres en travers pour croiser la pelite au niveau du pont avec chaque côté de chaque roche : particulier ! Passages jolis, en petites gorges rouges d'une hauteur max de 10m: ça reste bien ouvert mais ambiance canyon. Pas de vasques profondes pour sauter, hauteur maximale d'eau à 80 cm, tout se fait donc en désescalade ou à la corde ... A refaire en avril ou mai ! Juste dommage le retour sur la route : pas hyper sécurisé et la montée depuis le Var donne chaud au retour ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2150/observations.html>)
