Country: España / Spain Region: Asturias, Principado de / Principality of Asturias Subregion: Asturias Town: Peñamellera Alta		
Difficulty: easy	Grading: v2 a2 II	Total time: 3h25
Approachtime: 1h	Tourtime: 2h	Returntime: 25min
Altitude entry: 225m	Altitude exit: 155m	Delta Altitude: 70m
Canyon length: 400m	Highest rapell: 10m	Amount rapells: 5
Transport: on Foot	Rock type:	drainage area: km ²
Season:	Orientation: North	Best Time:
Rating: ★ 2.9 (2)	Info: ★ 0 ()	Belay: ★ 0 ()
Specialities:		
Gear: Ropes: 1x25m		
Summary: (machine translated) Varied rapel canyon. Climbing of the upper parts prohibited.		
Hydrology:		
Access: (machine translated) Coming from Santander on the highway, 12 km after San Vicente we turn onto the AS 114 leading to Arenas de Cabrales and the Cares canyons. After about 20 km we reach Trescares, driving up the Rio Cares. A few hundred meters after the village we park the car in a bay above the Romanesque arch bridge 'Puente la Vidre'.		
Approach: (machine translated) Over the bridge (high jump?) we go uphill to the left for a few meters; then the path goes along the slope above the Rio Cares always at about the same height. At a fork to the right, we continue straight until we come to a house where the Trescares comes down from the right. We change direction 90 degrees to the right and climb up above the stream. Crossing the 'Puente de Madera' we reach the orographic right side of the stream. We continue up until we leave the path to the right, following clear footprints, and cross the slope, climbing only slightly, to the entry to the Trescares. This is fed here by a spring		
Tour: (machine translated) 5 rappels, some slides, one grotto		
Return: (machine translated) Left at the Puente de Madera and back on the approach path		
Coordinates: Canyon Start 43.3109 -4.7070 Canyon End 43.3123 -4.7065

Automatisch importiert von Descente-Canyon.com für Canyon Trescares Nous avons parcouru la partie moyenne et inferieure conformément à la description d'un topo "40 barancos Asturia". Le canyon est assez arrosé, sans problème pour des adultes encadrés. Un guide local nous a averti que les parties sup et moyennes sont définitivement fermées sous peine d'amendes salées... Parc national oblige. A confirmer. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21650/observations.html>)
