Country: Italia / Italy Region: Piemonte Subregion: Verbano-Cusio-Ossola Town: Fonti		
Difficulty: difficult	Grading: v4 a5 V	Total time: 6h50
Approachtime: 30min	Tourtime: 6h	Returntime: 20min
Altitude entry: 1220m	Altitude exit: 620m	Delta Altitude: 600m
Canyon length: 3900m	Highest rapell: 68m	Amount rapells: 39
Transport: Car optional	Rock type:	drainage area: km ²
Season:	Orientation: South	Best Time:
Rating: ★ 4.3 (3)	Info: ★ 3 (1)	Belay: ★ 3 (1)
Specialities:		
Gear: Ropes: 1x70m (inf.), 2x35m		
Summary: (machine translated) Long and watery rappel canyon		
Hydrology:		
Access: (machine translated) From Domodossola, head west towards the Bogna Valley in the direction of Fonti. After about 7 km you pass a long bridge from which you can see the last cascades of the Variola. 850 m further on, the road to Piai leaves to the left. Here you can park a car. If you want to get off before the passage with the 68 m rappel and longer walk (recommended, because the last part is not very rewarding and then 2x30m of rope are enough for a highest rappel of not quite 25m), park the lower car 570m further on the access road at the entrance to Fonti, just before the bridge over the Bogna. Just after the bridge, on the right, there is the path coming from Monsignore, on which we will return. With the second car, you continue, passing through the village of Fonti and then up the road in serpentine through San Lorenzo, Graniga, Pianzola. After a total of 8.7 km (calculated from the lower car at the road junction for Piai), at a 90° left turn, we come to some houses scattered on the hillside (1290 m a.s.l.). Here we see a post with signposts. Nearby we park the second car. If you want to go only the part after the water drainage, you branch off in the direction of Mulera and park behind the small church.		
Approach: (machine translated) We follow the sign "Ponte Alpe Baim" on a path in horizontal north direction. After some time we come to a tree trunk with large writing. Here the main trail goes down to the right to the bridge (1100) - lower entry (time saving compared to upper entry a good 1 hour). The trail to the upper entry goes here on the left and is marked with red markings. Follow them past the ruins of a house to the stream. Middle entry: From the church along the forest road downhill until you reach the power station. Here, pass between the two buildings and descend behind the right building onto the tube. Follow the tube until after the first tunnel you can descend to the streambed on the right. (Duration 20-30min)		
Tour: (machine translated) Long and great descent with slides, possible jumps, bottlenecks and pools flooded with sun (if the sun shines). At the water drainage you can get out if necessary, if the water flow seems too strong for the following bottlenecks. If we also want to hook the lower part, we have to carry a 60m rope in addition to 2x30m rope.		
Return: (machine translated) Before the old stone bridge left out and over the bridge to the right the trail to Fonti. If the last part with the 68m rope (can be broken 50/20) is also walked, at the barrage on the orographic left side of the Rio Bogna up a few hundred meters until you see on the opposite side a path that leads up to the lower car.

Automatisch importiert von Descente-Canyon.com für Canyon Rasiga Beaucoup de marche et de nage. Jolie canyon. Tous les rappels sont numérotés mais très dur à trouver. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2572/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Rasiga Glisse beaucoup, et beaucoup de marche (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2572/observations.html>)

2024-09-16 | System User | |📖|📌|🌊 Normal | 🟢 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Rasiga Très ludique jusqu'à la prise d'eau. Très esthétique ensuite. Les obstacles sont numérotés et le dernier rappel de la partie avant le pont doit être le numéro 30. S'ensuit 20' de marche en bloc jusqu'au pont où on peut sortir si on veut éviter les grandes cascades. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2572/observations.html>)

2024-08-31 | System User | |📖|📌|🌊 Normal | 🛑 Not done

Automatisch importiert von Descente-Canyon.com für Canyon Rasiga Toujours aussi sympa. Le meilleur canyon du coin pour nous. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2572/observations.html>)

2024-08-31 | System User | |📖|📌|🌊 Normal | 🟢 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Rasiga DC + après le pont, la 35 après la 50 ne doit pas être sous estimée. Tous les sauts et toboggans ok. On a fait 7h de voiture à voiture sans navette (à 2). A choisir après cette intégrale, si on fait depuis le barrage et qu'on sort avant la 50m(chemin rive gauche avant le pont), on a vraiment le meilleur du canyon ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2572/observations.html>)

2024-08-01 | System User | |📖|📌|🌊 Normal | 🟢 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Rasiga 5h jusqu'à prise d'eau à 6. 2h30 prise d'eau jusqu'au pont à 4. DC jusqu'à prise d'eau (ressaut 25) puis DC+ jusqu'au pont (ressaut 40) Très joli très joueur et lisible. Les tobs et les sauts passent. Ancrages ok. Première partie ouverte avec bcp de gros tob. 2ème partie plus encaissée très jolie Si on fait pas les cascades sous le pont (C70) 35m (x3) de corde suffisent. Lorsque le canyon s'ouvre après l'étréouiture une sente est présentée RG pour rejoindre le pont. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2572/observations.html>)
