

Hüribach

Hüribach

Create: 2023-03-09 20:55:39	Update: 2023-10-14 09:16:27	Print: 2024-12-22 03:12:16
Country: Schweiz / Switzerland Region: Kanton Schwyz Subregion: Bezirk Schwyz Town: Hinterthal		
Difficulty: difficult	Grading: v4 a5 IV	Total time: 4h15
Approachtime: 5min	Tourtime: 4h	Returntime: 10min
Altitude entry: 910m	Altitude exit: 630m	Delta Altitude: 280m
Canyon length: 800m	Highest rapell: 24m	Amount rapells: 28
Transport: Car required	Rock type:	drainage area: km ²
Season:	Orientation: North	Best Time:
Rating: ★ 4 (6)	Info: ★ 2.3 (3)	Belay: ★ 2.3 (4)
Specialities:		
Gear: Ropes: 3x30m		
Summary: (machine translated) Aquatic rappel canyon; cold water with mostly great force; beautiful formations; relatively narrow, no high side walls, but still only one emergency exit possible in each of the upper and lower parts; but exit and access possible at the road bridge that spans the canyon approximately in the middle (710m above sea level). Lower section easier (here highest rapell 18m).		
Hydrology:		
Access: (machine translated) From the village of Schwyz (in the canton of the same name) to the east of Lake Lucerne, we ride uphill along the Muota to Muotathal. We cross the village and reach the district of Hinterthal at its exit. Here the road bends sharply to the left and crosses the Muota. However, we drive straight ahead before the bridge (an inn on the left-hand side of the stream) and park the lower car in a suitable place. With the second car, we turn right at the inn in the direction of "Hürital". The steeply ascending road crosses the Hüribach at 730m above sea level, continues uphill in a long serpentine to cross the Hüribach again. Park the second car here. If you only have 1 car available, take the hiking trail that leads up the orographic right side of the Hüribach (approx. 1 hour).		
Approach: (machine translated) Directly from the bridge.		
Tour: (machine translated) The jump pools shown in the topographic view may be gravelled, so check carefully! After the spring floods, anchors may also be damaged or knocked out. However, it can also happen that (as in the Zanaibach, for example) rocks under the anchor are washed away and the anchor is no longer accessible or only accessible with difficulty. The time given for the descent in the canyon can be reduced to about 2.5 hours depending on the water level.		
Return: (machine translated) Before reaching the houses, turn right and cross the meadow to the car below.		
Coordinates: Canyon End 46.9713 8.7728 Canyon Start 46.9637 8.7736 Parking at Entry 46.9637 8.7734 Parking at Exit 46.9731 8.7737 Intermediate Canyon Exit 46.9686 8.7739

Automatisch importiert von Descente-Canyon.com für Canyon Hüribach Amarages correct, souvent en double avec chaine. Parfois caché sous la mousse ;-). Dans la partie inférieure au C9 (?) il y a un qui est presque inaccessible (RD, en haut, grimpe risqué sur une crête, positionné dans un creux derrière la crête) qu'on devrait placer ailleurs. Assez glissant, surtout hors de l'eau. Sinon, magnifique canyon! Contact très gentil avec la centrale électrique. Demandez qu'ils arrêtent le mécanisme automatique. Attention: pour le parking amont ne laissez pas les voitures directement au pont. L'espace libre à côté de la rue est nécessaire pour la circulation (l'esquive). Il y a une grande place (bûcherons) 200 m plus haut à gauche. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21334/observations.html>)

2024-08-24 | Juan Montesinos | ★★☆☆ | 📖 ★ | 📌 | 📌 | 🌊 Normal | 🚫 Not done
Slippery gully, all meetings in order. Many are doubles with chain and free link, although they are starting to get old. (machine translated)

Top water level, usually quite easy to walk in the active part, very slippery outside. Anchor old, but ok. Some fixed ropes could be replaced. (machine translated)

2023-06-25 | Nico Schneider | ★★☆☆ | 📖 ★★☆☆ | 📌 | 📌 | 🌊 Normal | 🍏 Completed
The creek is very slippery, but it should definitely be done if you are in the area. By far the most beautiful and continuous stream in the area. Picture of the water level is attached. The picture was taken at the water intake by the middle bridge. (machine translated)
