<b>Summary:</b> (machine translated) Characteristic rappel canyon; initially blocked; partly silted and very slippery; stands and pitons at our ascent in poor condition (general renovation of the stands necessary); cold water; only short walking passages; catchment area 3.4Km <sup>2</sup> ; most sun in the morning; water is diverted for brine mine; final waterfall and water volume visible from P1; all rappels are in the water course.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Sbg. south on the A10 direction Villach --> exit Kuchl --> direction Abtenau, Russbach and Hallstatt --> in Hallstatt, parking possibility either at P1 next to the tunnel, or after the tunnel at the valley station of the cable car (subject to charge).		
<b>Approach:</b> (machine translated) First option: Take the inclined cable car up (€12,-Stand2024) and follow the short brine pipeline path to the stream/bridge. Second option: save yourself the money and walk up the clearly visible hiking trail next to the canyon --> from this path you have several opportunities to look into the canyon --> after a few serpentines you pass the Franz Josef Stollen --> from here it is not far to the mountain station --> then follow the brine pipeline path down the iron stairs to the stream (bridge) --> entry at approx. 760Hm.		
<b>Tour:</b> (machine translated) On the bridge that leads over the Mühlbach, rappel over the railing for about 20m to the next belay on the right side --> at the beginning there are many trees in the canyon --> at the first single bolt on the right, it goes about 20m to the second belay on the left (chain anchor), from which ideally about 30m is rappelled over a cascade (better to divide if there is a large blockage). 30m over a cascade (better to subdivide if there is a lot of blockage) --> a short slippery climbing passage and small slides follow --> chain anchor right, 25m over a cascade --> short climbing passage (3m) to the single bolt left, here over a small step approx. 15m rappel --> the next rusty belaystation is right --> 15m rappel through a small chute (with overhang) --> 30m rappel (right) over a cascade (in shallow pools) --> short walking and slippery climbing passage to the high belaystation left --> 30m rappel --> now you are in front of a green iron bridge --> single bolt right --> 5m rappel --> left 3m downclimb or right 5m rappel (over small trees) --> 15m rappel over single glued anchors left --> 10m rappel right --> short climbing passage right before the next bridge --> under the bridge left 15m rappel from the bolt (beautiful view) --> then 25m cascade (old chain anchor and glued anchors!).) Attention! In the middle of the rappel passage a small pool --> highest rappel (right or left) approx. 35m --> via a traversese rope (left) you reach the belay, approx. 20m rappel (arrival under the bridge --> at the exit of the bridge wall there is a glued anchor for the last 15m steps.		

**Return:** (machine translated)

At approx. 540Hm after the passage you climb left out of the stream --> you are at the inn "zur Mühle" --> to reach P1, go right in front of the inn over the small bridge and continue up the Mühlerstiege (5min) --> if you have parked the car at the valley station you have to walk through the village and accept astonished looks --> after approx. 15min you reach the parking lot.
