After the last houses, cross the stream, turn left after the bridge and park the car here.		
Approach: (machine translated) From the parking lot directly into the stream.		
Tour: (machine translated) Short and attractive, combine well with Angon, Fontaine Fayard, Nant de Graz, Mine or Montmin.		
Return: (machine translated) Only a few meters after the gulch widens, a trail on the left goes steeply up, partly secured with ropes. Attention: The trail starts against the direction of flow in the canyon, so it can only be seen if you look back against the direction of flow of the water. At the top of the canyon rim you walk up a meadow to the road and to the car.

Stands ok. Still enough water flow, where other canyons already weaken in this regard. On the way back only at the beginning over the meadow, then directly on the edge of the canyon through the forest. (machine translated)
