<b>Specialities:</b>		
<b>Gear:</b>		
<b>Summary:</b> (machine translated) Rappel canyon. little incised		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We leave the A9 at Sion (whether exit Conthy, Sion-ovest or Sion-est) and take the road up to the Sanetsch reservoir. After a few switchbacks, we pass through Chandolin. A few meters after leaving the village, we see the church of Notre Dame des Corbelins on the left of the road. From here it is then another 1.6 km to the parking lot for the lower car, visible as such (see Google aerial photo).\n\nWith the second we continue uphill and after about 2 km cross the Morge on the Pont du Diable (905m altitude) and after another 1.6 km meet the road coming up from Erde, Daillon. On the right we would continue towards Sanetsch. We turn left here and park our car for the access 550m further on in the large parking lot on the left of the road.\n\nThe access can also be made via the orographic right slope side of the Morge (Erde, Daillon).		
<b>Approach:</b> (machine translated) The entry can be made at the road bridge; then you have to descend about 400m in the stream before it gets interesting.\nAlternatively, take the track that leads directly from the parking lot down the slope. Then, keeping to the right, we come to a rappel that drops directly to the bottom of the gorge (30m).		
<b>Tour:</b> (machine translated) At the entry at the bridge (960m altitude) first a longer run, past some car wrecks. Then 11 rappel, also jump and slides. The tour ends at the exit into the Morge.		
<b>Return:</b> (machine translated) A small path leads up the left slope to the road (handrails)

2024-07-26 | System User | |📖|📍|🌊 Normal |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Rogne Fait avec 4 clients pas mal d'arbres avant les premières verticales, pas mal d'arbres au milieu la fin est toujours aussi belle.niveau d'eau soutenu rappels guidés qui peuvent être utile, les sauts et toboggans passent bien, les sources de la rogne sont plus froides que la Morge.amarrages OK vieillissant mais RAS.En revanche très glissant jusqu'à la fin.arrivée à la Morge attention le barrage fait des déssablages journaliers.je vais peut être installer 4 amarrages pour pouvoir traverser en mode tyrolienne si trop d'eau dans la Morge, car tous les arbres ont dégagés! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/23489/observations.html>)

2024-07-20 | System User | |📖|📍|🌊 High |👍 Completed
