Access: (machine translated)

To Villebois as described at the canyon Rheby. From Villebois on the orographic. right bank of the Rhone on the N 19 about 11 km south to Serrières-de-Briord. In the village park the lower car, do not park at the church at the exit.\nWith the second car back towards Villebois. Shortly after the end of Serrières, turn right onto the D 32 and head east up a winding road. 2.3 km after the turnoff, a dirt road leads 400 m down to the right to the stream. Either drive down to the bridge and park there or at the turnoff from the D 32 (in both cases parking space is limited).

Approach: (machine translated)

North of the road bridge down to the creek.

Tour: (machine translated)

Starting in the Trefond, one then enters the Pernaz, in the upper reaches of which the Arodin is passed. Prohibited in August, as well as from November 1 to April 14.\nUnder a bridge, the wooden sign "CANYON: PRENEZ SENTIER RIVE GAUCHE SUR 500 m" should prompt us to continue in the Trefond (so do not take the path over the bridge!) and about 50 m further downstream, get out on the left onto a path and walk alongside the streambed for a distance of 500 m. Good to connect also with nearby Rheby.\n\n

Return: (machine translated)

After the last rappel (R9 - knot rope to climb again - 2018) into the swimming pool (jump possible) out to the right on a footpath that leads to the church in Serrières.

Automatisch importiert von Descente-Canyon.com für Canyon Tréfond-Pernaz Vrai GD, pas mal d'arbres dans et hors des vasques, qui ne facilitent pas le franchissement de celles-ci, quelques mouvements d'eau dès que l'on a plus pied. Solo, j'ai préféré m'échapper, mais l'ensemble a de bonnes chances d'être praticable, selon l'emplacement d'éventuels troncs dans les vasques... A aborder avec prudence dans ces conditions. (Une deuxième grosse précipitation a suivi le soir, les obstacles peuvent donc encore avoir évolués, en bien comme en mal...) Automatisch importiert von Descente-Canyon.com für Canyon Trefond-Pernaz Débit très faible dans la première partie. Le débit devient sympa après le raccordement du second torrent. Prudence dans les vasques, pas mal de branches. La seconde partie du canyon est vraiment très sympa à faire. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/223/observations.html>)
