We walked up the many steep steps from Meia Légua and reached the canyon in 45 minutes. We were pleasantly surprised. (machine translated)

Very nice canyon, now top equipped! Be careful at the high C90 waterfall. There must be an extremely sharp ledge about 15 meters below the C65 intermediate stand. A canyonist has massively battered our ropes. (machine translated)

The canyon is now fully equipped with U-shaped stainless steel glued anchors and chains at the high abseil points. There has been a landslide on the approach from below, but it is passable. (machine translated)

Predominantly new adhesive surfaces, still very old hooks in places as of Jan 2023 (machine translated)
