Specialities:		
Gear:		
Summary: (machine translated) Hiking, downclimbing and rappelling in a mostly wide and open riverbed. Some possible jumps. Many (emergency) exit possibilities. At the steps usually several anchors set up (idR with handrail - to set up). Canyon also suitable for beginners, but during rainfall - also consider catchment area - extreme flash flood - danger.		
Hydrology:		
Access: (machine translated) From the highway exit Ste. Suzanne we take the D51 in direction SSW to Bagatelle. At a right turn of the road in the center of the village we turn left into the Chemin Camp Creole direction "Les Hauts, Pointe Canal" to the Bassin Boeuf. 1600m further on we park the car for the exit in a bulge on the left side of the road (see also Google sketch access and photos). With the second car we continue another 900m until a sign points to the left to the "Bassin Boeuf". We follow this signpost and arrive at a parking lot for hikers, where we park the car for the access.		
Approach: (machine translated) We follow the wide path for about 160m and after about 10 minutes we come to the Bassin Boeuf in the Rivière Sainte-Suzanne. Here we get in.		
Tour: (machine translated) After a few meters downstream we come to the 1st rappel into the basin Nicole. About 150m further follows a step that can be jumped. After crossing a grotto (bypass possible on the left) we come to the next step, which is descended on the left edge. There follows a possible jumps (5m) before we reach the next step. This tour ends with a step of 28m into a large basin.		
Return: (machine translated) About 40m after the large pool, turn left out of the riverbed (2017 cairn) and up through the banana plantation until you reach a path. Following this to the right, we meet a concrete staircase and thus come to the (lower) auto.

Automatisch importiert von Descente-Canyon.com für Canyon Sainte Suzanne [Rivière] Canyon court, accès et sortie faciles, équipement bon. Nous n'avons pas pris le R1 dans l'actif (ce sera pour la prochaine fois). Au R4, l'ancien guidé possible sur arbre est retenu par une corde sur un arbre un peu plus en arrière de la falaise : bof ! Préférez prendre le relais prévu contre le bassin croupi, toujours en RG. Canyon ludique : sauts et rappels sympas, marche en blocs limitée mais pas de toboggan. A faire en initiation ou pour travailler les manips. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21360/observations.html>)
