Country: Italia / Italy Region: Piemonte Subregion: Verbano-Cusio-Ossola Town: Maglioggio		
Difficulty: difficult	Grading: v5 a3 IV	Total time: 4h40
Approachtime: 35min	Tourtime: 4h	Returntime: 5min
Altitude entry: 850m	Altitude exit: 590m	Delta Altitude: 260m
Canyon length: 1000m	Highest rapell: 55m	Amount rapells:
Transport: Car required	Rock type:	drainage area: km ²
Season:	Orientation:	Best Time:
Rating: ★ 3.8 (3)	Info: ★ 2 (1)	Belay: ★ 2 (1)
Specialities:		
Gear:		
Summary: (machine translated) Rappel canyon in granite below water drainage		
Hydrology:		
Access: (machine translated) From Domodossola northward, bypass Crodo on the right on the through road and after the town turn right for Maglioggio. Cross the Fiume Toce and go uphill. In the first serpentine to the right, you can go left on a dirt road until the stream. Park the (first) car there (other access to the exit described at CICA RUDE CLAN on the Internet). With the second car go up to Maglioggio. At the fork before the village, take the left road to park if there is no free parking in Maglioggio (about 17 km from Domodossola).		
Approach: (machine translated) From Maglioggio follow the signs for Madonna del Ronco/Alpe Aleccio. You will come across a road again (closed to motor vehicles), follow it for a bit, leave it to the left at a small chapel and later rejoin the road. On it we come to a water drainage where we enter (climbing down the ladder on the right) the Antolina.		
Tour: (machine translated) The canyon gets successively deeper and narrower until it ends with a 55m waterfall. The water falls down in a chute that is so narrow that it cannot be seen from further out. Before the high bridge there is an exit possibility on the right up to the road. Slippery terrain.		
Return: (machine translated) Approx. 200 m after the last rappel (C 18) turn left out and to the car.		
Coordinates: Canyon Start 46.2344 8.3454 Canyon End 46.2326 8.3339 Parking at Entry 46.2303 8.3371 Parking at Exit 46.2317 8.3319

Automatisch importiert von Descente-Canyon.com für Canyon Antolina Si vous trouvez un équipement sur lunule, ne pas la prendre et partir a gauche jusqu'à un rappel bien équipé (on est passé a droite au plus joli et encaissé mais l'équipement est très light et on a du enchaîner des ressauts sur la même corde).Canyon superbe qui mérite plus que sa cotation actuelle.Très glissant. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21383/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Antolina Équipement RASCascade finale magnifique et de beaux passages végétaux (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21383/observations.html>)

2024-07-30 | System User | |📖|📍|🌊 Normal |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Antolina On est entrés dans le canyon par un affluent RG au niveau de la prise d'eau sur AN.attention aux 2 toboggans successifs T10 ancrage sur lunule ficellou rouge (tronc coincé en diag) et T6. Le second n'est pas équipé et la vasque n'est pas profonde. On a utilisé le tronc en ancrage mais il n'a pas l'air très solide ni pérenne.C53 super belle. Prévoir un vieux mousqueton à laisser à demeure pour faciliter la déviation sinon faire dev. Joli ambiance mais manque de ludicité vasques bien engravées pour la plupart. 3h à 2 sans se presser (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21383/observations.html>)
