Automatisch importiert von Descente-Canyon.com für Canyon Kaliteia Le canyon n'a pas été touché par le méga incendie, par contre c'est la désolation autour...le canyon est magnifique et continu. Equipement ok. Retour sans navette env. 1h (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22526/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Kaliteia Did Agios Loukas + Kalitheas. Recommended. Lovely canyon! Good flow even in September although clearly spring would be a lot more sporty. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22526/observations.html>)

Despite numerous comments to refrain from an ascent, it was beautiful today. An incredibly continuous canyon with some jumps in fantastic scenic surroundings. The water level can be even higher for experienced canyonists. Two people did it in 2.45 hours with numerous photo stops. Belongs in my personal top ten. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Kaliteia Canyon de très belle envergure !! Superbes enchaînements !!Équipements très correctLe temps de descente n'est pas a sous-estimé, (une grosse vingtaine de rappel) nous avons mis 5h a 3 personnes avec une seul personne qui équipe.L'accès au départ est bien accesible (route neuve sur la portion final) mais il vaut mieux oublier le parking aval si vous n'avez pas un 4x4 ou un bon véhicule - piste très raide avec cailloux qui roule (sûrement moins difficile en descendant par le haut)Nous somme rentré à pied par la piste en une grosse heure (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22526/observations.html>)
