| Access: (machine translated) From the freeway junction (Gotthard/Bernardino) north of Bellinzona, take the N 2 northwards via Claro to Scubiago (5.5 km). In Scubiago, just before the bridge over the Riale di Censo, turn right off the N 2 and after about 350 m you reach the stream again. Here is a good place to park the car (Beyond the bridge is the campsite "Al Censo"). You can also take a second car via Claro on a toll road (4 euros - 2010) to the entry. | | |
| Approach: (machine translated) From the parking lot, a path leads in an easterly direction into the forest. In the climb we then meet a trail coming from the right, which we continue to follow uphill. About halfway up, we cross the Riale di Censo and continue climbing in a northerly direction. We then meet a road that we follow to the right until we reach the stream (entry). Alternatively, by car to the upper parking lot and from there directly into the stream. The toll road costs 10 francs or euros per vehicle. Payable only in coins! The under car please park on the grass strip not on the piece of tar direction camping. | | |
| Tour: (machine translated) 14 - 16 rappel. Possibly sometimes problems with the rope retrieval (eg at the C65 - transfer 50m/15m)). The final rappel (C40) into the chute can be avoided by rappelling over the wall on the right. The jump that is marked in the topographic view at Nizzola no longer exists. | | |
| Return: (machine translated) After the boulder climb at the exit of the canyon left out to the car. | | |

Quite slippery at the moment. A few anchors could be renovated. All slides doable. (machine translated)

As with the first time in Censo, I thought the stream was overrated. Two very cool places, the 20m slide at the beginning and the 40m rappel at the end, in between there are many particularly slippery rappels. (machine translated)
