Hydrology:		
Access: (machine translated) From Grasse, we take the D 2085 in an easterly direction, pass through the village of Marganosc and from here we arrive at the village of Pont du Loup on the D 2210. From here we go (via D 6/D 3) up the Loup canyon (passing the canyon Bes-Gourmes and the "Saut du Loup") to Gréolières. From here we continue westwards on the D 79 for about 3 km in the direction of Andon. We pass a first valley cut and park the car next to the road just before the second valley cut.		
Approach: (machine translated) At the beginning of the bend before the second valley cut, a dirt road goes down on the left. We go down this, meet a water pipe and go on it a few meters to the right (in a westerly direction). A few meters before a tunnel, a path leads down to the stream.		
Tour: (machine translated) First hike in a chute, interrupted by steps that can be jumped idR.		
Return: (machine translated) After the large final pool up the path in a northerly direction (signs "sortie") we come back to the water line, walk on it in a westerly direction. We meet again the slope that we hiked down. On it up to the road.

Automatisch importiert von Descente-Canyon.com für Canyon Ray RAS. Tous passe sans corde si on sait où sauter et désescalader un minimum. Prendre son temps car le canyon n'est pas long mais il est vraiment sympa. Des toboggans qu'on refait après profusion dans tous les sens, des sauts sympa, très jolie...A faire (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2156/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Ray Eau froide environ 14 degres mais normale dans le Loup, débit correct pour tout faire, eau cristalline et soleil parfait. Conditions au top ! Toujours aussi intéressant pour les amateurs comme les débutants.
