<b>Summary:</b> (machine translated) Narrow and dark gorge with a lot of dead wood.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From the BAB 95 (Munich-Garmisch-Partenkirchen) via exit 11 ("Eschenlohe") in eastern direction to Eschenlohe. We cross the B 12 and keep right in the center of Eschenlohe on the Garmischer Straße. We come to a covered bridge over the Loisach, cross the river and then take the Walchenseestraße on the other side half-left. After not quite 300m (from Loisach bridge) we cross the Eschenlaine, which normally has no water flow at this point. After another 300m the road bends in a right angle to SSO. From here another 1100m and we park our car in front of the no driving sign on the right at the edge of the forest.		
<b>Approach:</b> (machine translated) We continue along the forest road, soon we come to a fork, where we keep right ("Walchensee", "Durchs Eschenlainetal", "Heimgarten"). About 1,8 km further or 25 min. later we cross the Eschenlaine. 800m further (in about 15 min) we keep left at the next fork. About 300m further we come to the bridge over the slide brake of the Eschenlaine. The access to the canyons starts with a 35m rappel from the rods under the bridge.		
<b>Tour:</b> (machine translated) After the 35m rappel, at the exit of the large pool, a first large wooden obstacle stands in our way. We climb over it and start the way through the gorge. It will not be the last wooden rappel, in between there are walks and short swims, smaller rappels and occasionally the possibility to jump (watch out for deadwood under the dark water surface). After almost 2 hours the canyon widens and offers several possible jumps in open terrain.\n		
<b>Return:</b> (machine translated) We get off at the pipe culvert on the slope, which we have gone in the access. Now either directly back to the parking lot or after about 15 min. re-entry into the Eschenlaine to let follow the walk of the Asamklamm.
