Summary: (machine translated) No details		
Hydrology:		
Access: Von Porto Moniz aus zur Seilbahn Achadas da Cruz fahren (Teleferico).		
Approach: Mit der Seilbahn nach unten fahren (Achtung, Öffnungszeiten auch für den Rückweg beachten!), dann nach links bis zum Ende der Ansiedlung gehen. Man kann den letzten Wasserfall sehen. Vor dem Abbruch zum Meer startet ein nur äußerst schwer erkennbarer Weg, der teilweise extrem ausgesetzt durch die scheinbar unpassierbare Steilwand führt. Zu Beginn kann man stellenweise einer schwarzen Wasserleitung folgen. Offiziell ist dieser Weg geschlossen. Nach spannenden 30 Minuten erreicht man den Wasserlauf an einem prägnanten Felsriegel.		
Tour: Abseilstelle folgt auf Abseilstelle, man legt deutlich mehr Meter am Seil als auf den Füßen zurück. Der letzte Abseilstand ist trittlos und ausgesetzt. Bei ruhigem Meer kann man ufernah den Turm eines Schiffswracks im Meer entdecken. Der Wasserfall führt zum Geröllstrand.		
Return: (machine translated) Along the cliffs back to the cable car from Achadas da Cruz

2024-10-21 | Casa Vento Madeira | 📖 | 🚧 | 🌊 Dry | 🚫 Not done

I used the access today as a way back / exit from the Igreja Superior. There have been several heavy landslides and the path is currently only passable with a very high risk of falling. The path will probably be repaired soon, as it is being used to maintain a water pipe. However, this may well take several months. I must therefore strongly advise against walking on it.
