<b>Summary:</b> (machine translated) Scenic approach, then rappel in a homogeneous gorge.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Oviedo on the A-66 south, in the direction of Leon. After about 52 km we come to a long tunnel, which we drive through. Now we can already see Caldas de Luna on the righthand side . However, we still have to go through the next tunnel and immediately after that we turn off onto the CL-626. 1,5 km after leaving the highway, we turn left on the bridge that will take us to the road that will bring us to Calda de Luna. In front of the church, we go up on the left until we reach the streambed, where we leave our car.		
<b>Approach:</b> (machine translated) In northwestern direction we now go up the slope, at about half height the path swings in the direction of NNO and we come to the saddle. Beyond down and in a long right turn we come above the rock bands in the stream.
