Summary: (machine translated)

Relatively low water rappel canyon, largely open.

Hydrology:

Access: (machine translated)

From Nice on the N 202 north towards Digne. After 20 km turn right into the valley of the Vésubie. Continue on the D 2565 for about 10 km until, just before St Jean la Riviere, the D 19 turns up at a sharp angle on the right. On the D 19 about 600 m to the next road bridge, where there is a limited space for the vehicle on the right.

Approach: (machine translated)

In the village (marking "131") up to the upper part of the village (marking "130"). From here a footpath, first southeast along the slope, later serpentines up through the forest to a prominent shoulder where the view opens to the east. Shortly after this point from the previous path on a path to the right and crossing slightly down to the streambed of the Peira.

Tour: (machine translated)

Attractive rappel canyon when water flows (evident at road bridge, last high rappel visible there); scenic access.

Return: (machine translated)

After the last rappel (55 m) left along the shore to the road bridge. On the road 1 km back to St Jean la Riviere (altitude 300 m above sea level).

Automatisch importiert von Descente-Canyon.com für Canyon Peïra Nous avons récupéré la corde de la précédente équipe. Un joli nœud de huit sur l'amarrage, à 10 cm du bout de corde... dommage de pas pouvoir la réutiliser, on aurait bien dit un coup de couteau propre en bas de la corde...
