Summary: (machine translated) Rappel canyon with water flow all year round		
Hydrology:		
Access: (machine translated) We leave the A 3 (Naples - Reggio di Calabria) at the Mormanno/Scalea exit and take the N 504 in a southwesterly direction (Papisidero, Scalea). After 17 km we reach Papisidero in the Lao Valley. About 400 m before Papisidero we turn left in a sharp right turn (sign: 'C. da Vitimoso') on a narrow road and after about 1 km we come to a bridge where we park the lower vehicle. With the second vehicle we continue in serpentines about 900 m uphill. At a concrete block with a water tap we turn right and drive the slope for another 1100 m to a house on the left. Park the second vehicle here.		
Approach: (machine translated) In front of the house, a path leads to the left in a southerly direction, first slightly uphill, then down to a bridge over the Castiglione. In order to 'take in' the beautiful first waterfall, it makes sense not to rope in from the bridge, but to follow the path for another 50 m or so, and then cross into the stream.		
Tour: (machine translated) Attractive canyon, narrow in places, with a luxurious pulley to protect the rope on the final 33 m rappel.		
Return: (machine translated) After the 33 m waterfall in the streambed down, then later on the orogr. left bank of the stream coming from the right up to the picnic area at the road bridge.
