Gear: Ropes: 2x 20m		
Summary: (machine translated) Varied forest gorge with fun potential (many slides and possible jumps)		
Hydrology:		
Access: (machine translated) From Nice, take the N 202 up the Var for approx. 29 km to Plan-du-Var. Shortly after this village, turn right into the Vesubie valley. 19 km after the turn-off, you pass through Lantosque. About 1.5 km further on, park the lower vehicle at the La Dorgane picnic area. If you think there is too much risk of your car being broken into here, you can park it about 200 m further on at the road junction to la Bollène near an inhabited house. Take the other vehicle at the said road junction on the right onto the D 70, up to the village of Bollène and through it. The road continues above the canyon. You drive through a tunnel and at the next sharp left-hand bend at the edge of the slope there is space for the second vehicle (835 m above sea level), provided you haven't got up too late.		
Approach: (machine translated) From the parking lot, take the wide footpath down to the bridge over the Bollène.		
Tour: (machine translated) Sometimes crowded, especially by commercial visitors; large slide better not from above, but from the rope due to lack of control; long slide afterwards without any problems (but lying down!). It is also possible to jump out of the vertical wall from the left.		
Return: (machine translated) After the last somewhat larger pool, descend on the footpath on the right bank, then later on a bridge to the left bank and out to the La Dorgane picnic area. It is important not to climb up to the village of Bollène.

Automatisch importiert von Descente-Canyon.com für Canyon La Bollène Impressionné par le nombre de groupes dans le canyon. Ça avait des airs de 15 août mais heureusement sans les bouchons. Le débit est totalement redescendu depuis les pluies de dimanche dernier (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2228/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon La Bollène Toujours aussi agréable. Le saut vers la fin en grimant sur la gauche dans les arbres est à nouveau faisable, il y a du fond. Automatisch importiert von Descente-Canyon.com für Canyon La Bollène Canyon réalisé sans soucis. Tout passé. Les deux grands toboggan sont extras ! Nous avons fait une variante avec une seule voiture : garé a la chapelle, a pied jusqu'au départ (10mn), descente du canyon jusqu'au deuxième toboggan, remontée a la chapelle par
