<b>Summary:</b> (machine translated) Varied rapell canyon, can be violent with proper water flow		
<b>Hydrology:</b> <a href="http://www.saihebro.com/saihebro/index.php?url=/datos/ficha/estacion:A102">http://www.saihebro.com/saihebro/index.php?url=/datos/ficha/estacion:A102</a>		
<b>Access:</b> (machine translated) Coming from Lleida, we take the C-13 through Balaguer and Tremp towards Pobla di Segur. Not quite 1 km after passing Tremp, we turn left off the C-13 in the direction of Gurb. We cross a closed military area (barracks) and may be asked by the guard to identify ourselves. After a few km we come up to Gurb. We drive up to the back group of houses and find a larger area to park our car on the left.		
<b>Approach:</b> (machine translated) Already here signs show the way to the canyon. We set course for Font de Moli and a whitewashed spring house. We do not follow the markings that point downward, but continue at about the same altitude and come to the Barranc de Comes, which is joined a little above the Barranc de Llagunes. The Comes is an orographic. right side ditch of the Caramell. Here is usually the entry.		
<b>Tour:</b> (machine translated) 6 rapells, some possible jumps, a natural arch		
<b>Return:</b> (machine translated) When the canyon opens up and the streambed flattens out, head out to the right at the oaks and keep going up towards Gurb (markings partly a bit confusing).
