<b>Summary:</b> (machine translated) Aquatic hiking canyon with a few and short rappels.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Barbastro on the N-123, in the direction of Benabarre, Graus. We pass through the narrows (Congosto) of the Rio Èsera. After 20.9 km from Barbastro - T - junction N-340/N-123 in the south of the city - the A-139 turns north, towards Graus. We stay here on the N-123 , drive along the south of the reservoir and after another 16.4 km we meet the N-230 in the south of Benabarre. On the N-230 we go first a short distance to the north, then to the east. After 6.3 km (from Benabarre) we see a pig farm (?) on the right, 2.7 km before the Torla exit. We leave the N-230 here to the right and park our car so that it does not interfere.\n\nA car transfer to the canyon exit is also possible, but hardly worth it.		
<b>Approach:</b> (machine translated) We take the dirt road that first goes east and then after about 100 m bends to the right (south). At first through fields we go later in direction SW to the streambed of the Rio Seco. 70 m after the bridge we turn left from the track and take the dirt road, later path, which crosses again the Rio Seco to keep then on its left bank to the south. Before the path turns east, we descend to the right into the streambed and, following the path, we reach the first narrow point (entry).		
<b>Tour:</b> (machine translated) After the first bottleneck and a stretch in the Bm or next to the stream, we pass through a second bottleneck and then come to the Rio Cajigar. We go downstream in the quietly rippling water, cross under a clamping block and come to the rocky outcrop that marks the beginning of the canyon proper. We rappel down into the gorge (3 rappels) and enjoy the pools, the possible jumps, the rock formations, the ambience. Where the stream loses itself in a wide gravel bed, we climb out to the right onto a dirt path.\n		
<b>Return:</b> (machine translated) We take this track to the right and it leads us straight back to our car at the N-230, cf.: <a href="http://michelbechard.perso.sfr.fr/htdocs/CANYON/Isoles/Cajigar/cadreCajig.htm">http://michelbechard.perso.sfr.fr/htdocs/CANYON/Isoles/Cajigar/cadreCajig.htm</a>
