Country: France Region: Corse / Corsica Island Subregion: Haute-Corse / Upper Corsica Town: Corscia		
Difficulty: a little difficult	Grading: v4 a1 III	Total time: 4h15
Approachtime: 1h10	Tourtime: 3h	Returntime: 5min
Altitude entry: 765m	Altitude exit: 515m	Delta Altitude: 250m
Canyon length: 450m	Highest rapell: 70m	Amount rapells: 7
Transport: on Foot	Rock type:	drainage area: km ²
Season:	Orientation: South	Best Time:
Rating: ★ 3.1 (2)	Info: ★ 0 ()	Belay: ★ 0 ()
Specialities:		
Gear: Ropes: 2x50m+1x35m		
Summary: (machine translated) Rappel canyon, mostly dry in summer		
Hydrology:		
Access: (machine translated) On the Corte - Ponte Leccia link road, about halfway, is Francardo. From here take the D 84 in the direction of Calacuccia, entering the Golo canyon Scala di Santa Regina. 7 km after passing the Ponte Castirla you come to the bridge over the Falconaia and have a view of the high waterfall. 50 m after the bridge on the right there is a spacious parking strip. Here you can park your car.		
Approach: (machine translated) From the car, climb 20 meters uphill to the old mule track; turn right on it until you can see the Falconaia with its waterfall on a small hilltop. Now climb steeply on (partly quite indistinct) tracks. Later you will see a power pole at the top, towards which you walk. When you reach it, you meet the path that comes from the village of Corscia. Attention: The time-consuming access and return to and from Corscia (as described by Hubert Ayasse - Philippe Dubreuil) can be considered either if you want to combine the canyon with a beautiful mountain hike or if there is no space for your car at the bottom (in summer there is also a general parking ban in Scala di Santa Regina).		
Tour: (machine translated) Uninterrupted sequence of mostly somewhat higher rappel. In between interesting narrow passage. The C70 has about in its middle a comfortable transfer. Towards the exit a little tough block climbing.		
Return: (machine translated) At the road bridge, turn right out to the car.		
Coordinates: Canyon Start 42.3723 9.0723 Canyon End 42.3693 9.0726

Automatisch importiert von Descente-Canyon.com für Canyon Falconaia Approche en 1 h, sans souci. On a bien suivi les cairns. Prévoir un pantalon léger pour éviter les "rayures". Très beau canyon descendu en 2 h 30 min. Le débit est très correct après les pluies de ces derniers jours. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2321/observations.html>)

2024-06-26 | System User | |📖|📍|🌊 Low |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Falconaia Beau canyon. Marche d'approche horrible dans le maquis corse. Aucune trace GPS, heureusement qu'il y a quelques cairns. Sinon RAS (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2321/observations.html>)

2024-06-26 | System User | |📖|📍|🌊 Low |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Falconaia Canyon de type alpin, succession de rappels et quelques désescalades. Pas de saut ni tobogan donc. Belle C70 sur un plan incliné fractionnée. Equipement de bonne qualité. Avant dernier relais (pour main courante) en acier pas mal oxydé à changer, et dernier relais sur gougeons inox et plaquettes acier. Ce serait pas mal de les remplacer mais prévoir des plaquettes inox de 8mm. Coté engagement, canyon assez encaissé mais possibilité de se mettre hors eau pratiquement tout le temps (même si cela ne veut pas dire pouvoir s'échapper !) (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2321/observations.html>)

2024-05-09 | System User | |📖|📍|🌊 Normal |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Falconaia J'ai changer plusieurs sangle de relais. Un sécateur pour la descente pour couper les ronces peut être bien. L'approche est un peu longues et pas facile. Superbe canyon. La 70 pourrait ce faire en un seul jet avec une corde de 80m. Sur le relais rive gauche. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2321/observations.html>)
