Dry rappel canyon

**Hydrology:**

**Access:** (machine translated)

After bypassing Geneva on the Swiss N 1 after the border on the A 40 in the direction of Lyon, Dijon, Paris, After 25 km (from the border)take exit 11 (Bellegarde Center) in the direction of Fragny, Seyssel. 6 km further, at the exit of Mons, turn right on the D 992 and go through Seyssel and Culoz (another 23 km), where you continue on the D 904 (direction Bourg-en-Bresse) for an additional 8.5 km until Artemare (total 62 km from the border).\nArtemare we take a half-right at the prominent left turn (Rue de la Poste), cross the D 31 (Cote d'Yon) at Place de la Liberté and take Rue du Stade towards the school district and then out of town. We reach the nearby bridge over the Sèran and park the lower vehicle on the left just after the bridge.\nWith the other vehicle we go back to the Place de la Liberté and there turn left onto the D 31 (Cote d'Yon). In serpentines it goes up to the hamlet of Don. The D 31 crosses the Groin ("Gouffre ..."). Where it turns north a few hundred meters later, we turn left onto a dirt road that leads down to the Sèran. Park after the bridge.

**Approach:** (machine translated)

From the parking lot, head southwest; if you have problems finding the access, proceed to the viewpoint, then west. Here you will immediately come across the dry canyon and walk along it in a northerly direction until you can climb in. If necessary, rope in from the edge via a tree.

**Tour:** (machine translated)

The Sèran flowed through this canyon until it carved out the current course of the river; alternative for the Cerveyrieu if there is too much water in the narrow access.\nGood to combine with the canyons of the Sèran and the Groin.

**Return:** (machine translated)

Immediately after the high rapell in a westerly direction up under the rock face and along it until you find a suitable ascent to the top (the author did not succeed optimally, no clear path - 2008). Once at the top, return to the parking lot without a path.
