<b>Specialities:</b>		
<b>Gear:</b> Ropes: 1x30m		
<b>Summary:</b> (machine translated) Narrow and deep dark gorge, about 800 m long.		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We drive north on the A-138 from Ainsa in the direction of Bielsa. After 10 km (from the center of Ainsa) we cross the Rio Bellós and then pass through the village of Escalona. 350m after the bridge we turn northwest at the traffic circle ("Fanlo" - "Anisclocanyon") onto HU-631. We continue along the river (Rio Bellós), enter the canyon, the road goes partly high along the wall and after 23.3 km (from the traffic circle Escalona) we arrive at the saddle north below the houses of Fanlo. Here there is also an alternative approach on a better, especially wider road. For this purpose, 1.9 km after the mentioned traffic circle in the north of Escalona, we turn left onto the road to Buerba and Vio. We first drive past the campsite and then 12 km up to Buerba. Past the village, up over the saddle (with a beautiful view into the Anisclo canyon) and beyond in sepentines downhill. 4.4 km after Buerba, at an acute angle, we meet HU-631, on which we turn left (in a northwesterly direction). From here it is 8.5 km to Fanlo. We park our car at the saddle on the side of the road.		
<b>Approach:</b> (machine translated) We take the dirt road descending north from the road junction down into the streambed of the Rio Jalle. In the open gravel bed downstream to the first constriction.		
<b>Tour:</b> (machine translated) First small steps, then the 12m rappel into the hole. From here walking, slides and successively 5 more small rappel. Then the canyon opens and we stand at the edge of a wide but shallow pool.		
<b>Return:</b> (machine translated) Here we look for the stone markers on the left that mark the trail that still leads up. At a fork, we can keep left and reach the track that we walked in the access. We can also go straight up (or a little to the right) and reach the tarred road. On this road we turn left to the car.

## Reports:

2024-09-13 | System User | |📖|📌|🌊 Normal | 🟢 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Gloces Très bonnes conditions avec une eau cristalline. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2826/observations.html>)

2024-09-10 | Péter Bonczi | ⭐⭐⭐⭐👉 | 📖⭐⭐⭐ | 📌⭐ | 🌊 Normal | 🟢 Completed

A beautiful deep, narrow, dark canyon. Between 11.00 and 13.00 we saw no sunlight in the canyon, even though the sky was clear and sunny all day. Plenty of cold water. (machine translated)

2024-08-21 | System User | |📖|📌|🌊 Low | 🟢 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Gloces Personne l'après-midi Descente 1:30 et remontée en 30 min Une corde a été installée au milieu du canyon certainement pour permettre une remontée en echapatoire. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2826/observations.html>)
