Summary: (machine translated) Aquatic canyon in gloomy ambience.		
Hydrology:		
Access: (machine translated) Leave the Rhone Valley freeway A-7 (Autoroute de Soleil) at exit 19 (Bollene) and drive west past Pont-St. Esprit to Bagnols. From there continue to Alès (about 70 km until then). In Ales take the N-106 leading to Mende and reach Florac after 56 km. In Florac, turn south on the D-907, direction Meyrueis. After 5.5 km, at a junction, follow the road to the right and after another 9.5 km, in the hamlet of les Vanels, turn left. 5.5 km later, in Rousses, leave the D-907. Turn right into the D-119, after about 4 km you will reach a parking lot with a sign (before a right turn). Park the car here. From the beginning of June to the exit of August, use the parking lot set up for canyoneers in Rousses and take the shuttle bus to the entry (see regulations below).		
Approach: (machine translated) From the parking lot east down to the creek		
Tour: (machine translated) The attractive canyon in the dark granite rock has no boring walking passages, some good possible jumps and is also commercially heavily used (so get in as early as possible). The water is fresh even in summer, the rock slippery. 5 rappel between 7m and 12m.		
Return: (machine translated) On clear path left up to the road and on this back to the parking lot

Automatisch importiert von Descente-Canyon.com für Canyon Tapoul très chouetteaccès bien indiquél'échelle de débit était dans la zone blanchepas de navette en septembre mais à noter qu'au village de Rousses sur le parking, on peut trouver une salle pour se changer avec des sanitaires, un bac rempli d'eau (+ bacterless il me semble) pour rincer les combis et un autre pour rincer les chaussures, + cordes tendues pour égoutter tout ça. Bel accueil ! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2159/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Tapoul On s'est garées en haut, sur la seule place dispo comme indiqué sur le descriptif. C'est pas mal, peu d'approche, et le retour ne prend pas tant de temps sur la route. Ça permet d'éviter de partir en même temps que tous les guides qui passent par la navette !Tout passe dans l'actif, plein de sauts possibles. Le canyon est vraiment très beau. RAS sur l'équipement. On a pu travailler les rappels guidés là où les pros installent une tyrolienne (deux relais dispo en RG et RD pour pas se gêner).
