As the rope got stuck on the last ascent when we were pulling it off, we went in again. This happened on the triple sequence on the second rappel. It's best to give it a good jerk just before the rope jumps out of the ring. It got stuck in a mini-siphon and was very difficult to free, but doable. Otherwise a great canyon. 2 cars or shuttle required. Access road very bad and only accessible by high car. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Fonias Parking amont à la dernière épingle avant antenne . La piste est longue , bien caillouteuse sur la 2eme moitié mais ça passe bien en sandero stewart. Ça passe à mon avis aussi en voiture type clio mais faudra juste bien négocier deux trois passages. L'était peut vite changer après une grosse pluie .Approche facile en 40 min , suivre points bleus puis ça devient rouge.Canyon intégral fait en 3h50 à deux . C'est classe , quelques longueurs dans les blocs sur la partie sup (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/21598/observations.html>)

Se garer après Therma sur un grand parking en face du belle taverne.Prendre le chemin des touristes jusqu'à la dernière vasque , traverser le torrent et suivre les marques rouges . Laisser un chemin également marqué en rouge qui part à droite et continuer à monter. On retransverse le torrent pour continuer rive droite jusqu'à arriver au pied de la grande cascade. We only did the lower part of the canyon. To do this, walk from the Fonias parking lot to the last waterfall (20min). Then follow the red markings on the left until the path crosses the stream at 240m above sea level (30min). We needed 1h30 for the canyon. Very beautiful canyon. (machine translated)
