Summary: (machine translated) Side stream to the Soffia with a magnificent, free-falling 105m waterfall.\n\nThe canyon flows after the gorge into the Gola della Soffia. \n\nNormally you get out via the Soffia (2h), but you can also climb very steeply and largely pathlessly to the right before the last waterfall to the access path. In this way you could also do the most beautiful part of the Soffia after the Pisson.\n\n\nYou can also enter already further up in Val dei Forti.		
Hydrology:		
Access: (machine translated) SS203 from Belluno Ri. Agordo, at Ponte Mas turn left towards "Valle del Mis". Nice overnight stay at the lake, legal 2016 only possible with camper. Continue through the valley and park after the bridge in the area "Cascade della Soffia".		
Approach: (machine translated) Follow the steep road, open only to residents, until you reach Genna Alta. At a fountain turn right and follow a forest road to the entry for the Soffia. Cross the stream and climb to the right to a crossroads. Follow the right crossing path, exposed in places, to the streambed of Val Pisson.		
Tour: (machine translated) * 5m jump obligatory\n\n* downclimb\n\n* 35m rappel, 2 anchors left\n\n* 11m rappel, 2 anchors right\n\n* 15m rappel, 2 anchors & stirrups left.You have to keep strongly to the right while rappelling to reach a traverse rope to the next belaystation. If you miss this, there is still the old hanging belay 5m below. \n\n* 50m rappel of which 40m free hanging, 2 stirrups. Space for 2 persons.\n\n* 45m rappel, 2 anchors. Rock alcove, space for max. 4 people.\n\n* Escape to the right (20min, mostly pathless)\n\n* Downclimb 5m left into crack\n\n* Cross rope to belaystation right. 37m rappel from 2 anchors (supposedly there should be an intermediate belay after 17m)\n\n* Mouth into the Soffia. In the Soffia still good 2h with rappels down to 35m.\n

Very beautiful canyon, spectacular waterfalls and then it continues via the beautiful Soffia. Great! The first 5 meters are often described as an obligatory jump. However, the pool was only a BONE DEEP during our ascent! You will look in vain for an anchor, there is only old rope laid around a small stone. Various other anchor points are also in poor condition. (machine translated)
