<b>Summary:</b> (machine translated) Watery rappel canyon in red limestone		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Nice up the Var. In Puget-Theniers, turn right and head north on the D 16 towards Le Croix sur Roudoule. Leave the turn-off to Puget-Rostang on the right and continue uphill until the road rises well above the level of the stream and an old stone bridge appears next to/under a new suspension bridge. Park here in the marked parking area in the middle of the road.		
<b>Approach:</b> (machine translated) Continue along the road and cross the junction for La Croix sur Roudoule until you reach the signpost with the number 233. Follow this path to the left down to the stream. For access via Amarines see there, via Croc see there.		
<b>Tour:</b> (machine translated) The canyon lives through its colors (dark red limestone, gray-blue or even red slate sand, light limestone). No high rappels, lots of downclimbing and walking.		
<b>Return:</b> (machine translated) Immediately after crossing the fourth bridge (counting the bridge at the entry), turn left up the path that leads up the orographic left slope to the road, then 300 m along the road to the parking lot.
