Summary: (machine translated) Short friendly canyon (also very suitable for beginners and obviously well frequented)		
Hydrology:		
Access: (machine translated) From the 'Autoroute des deux mers' A-61 between Narbonne and Carcassonne, 21 km after the junction with the A-9 ('la Longuedocienne'), take exit no. 25 (Lezignan) onto the D-212 and drive in a south-westerly direction to Lagrasse (campsite on the heights before the town). Continue first on the D-23/D-212 upstream in the Alsou valley via St. Pierre des Champs and St. Martin des Puits. 18.5 km after Lagrasse, the D-40 branches off to the left (south-east) towards Terminet. About 500m before the first tunnel (over 3.3m clearance height), there is a parking lot on the left, partly under shady trees. Park your car here. Fee (2023) 4 euros for car, 6 euros for motorhome. Somewhat difficult approach and departure.		
Approach: (machine translated) From the parking lot, continue on the road through 2 tunnels (left view down into the canyon). Approx. 50 m after the second tunnel, a 'path' leads steeply down to the river.		
Tour: (machine translated) 4 smaller rappels, swimming sections, exit possibility before and after the high jump (5-7m) left up to the road. Possible jumps, underground passage. You can bypass the siphon on the righthand side, but if the water flow is moderate you can also rappel into the siphon pump and dive 30 cm through.		
Return: (machine translated) At the last wide waterfall with a large pool, turn right and walk slightly uphill to a path. It first leads downhill, then left over the stream and side stream, then up to the parking lot.

Automatisch importiert von Descente-Canyon.com für Canyon Terminet FR: Le canyon était définitivement sec à 70%, seulement à la fin il y a eu 2 moments de baignade. La description pour se rendre au point de départ pourrait/devrait être légèrement améliorée.... (suivre les panneaux « Tunnels » et directement au 2ème tunnel, chemin escarpé vers le canyon). Pour le reste, un beau canyon que nous retournerons certainement au printemps (avec plus d'eau). ENG: Canyon was definitely 70% dry, only at the end there were 2 swimming moments. Description to get to the starting point could/would be slightly improved.... (Follow signs "Tunnels" and directly to the 2nd tunnel steep path to the canyon). For the rest a beautiful canyon where we will definitely return in the spring (with more water). (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2373/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Terminet Ça croupie sur les premières vasques, il faudrait installer une tyrolienne et la laisser en fixe. Sinon impossible d'éviter les vasques sauf si on shunte les 2 premiers ressauts. C'est ce qu'on a fait. L'eau est claire à la résurgence mais plein d'algues se développent. Automatisch importiert von Descente-Canyon.com für Canyon Terminet On est passé, pour jeter un œil via les autres avis des derniers jours, à la fin de ta vie de voir le terminer entièrement sec depuis la route. Seul la dernière vasque coulait. Nous ne l'avons pas fait, justement à cause de l'eau qui manquait partout. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2373/observations.html>)
