Summary: (machine translated)

Commercially managed deeply incised hiking, jumping and swim canyons; information and guided tours at nevidio.canyoning@gmail.com www.nevidio-canyoning.com; check water level at entry (water level should be below 7 at the water level gauge!; large catchment area; Grabovica tributary also accessible; many slippery walking and downclimb passages; several narrow passages and downclimbs; no emergency exit; cold water; from the halfway point the more beautiful part of the canyon begins (similar character to Strubklamm near Salzburg).

Hydrology:

Access: (machine translated)

approx. 10min

From Šavnik take the main road in the direction of Kpaj/ Žabljak. Then at the signpost turn left towards restaurant Jatak, Nevidio and follow the narrow mountain road up. After the restaurant the road descends. There are a few serpentine bends until you reach the large gravel parking place on the left (sign Kanjon Nevedio) (parking for campers only).

Approach: (machine translated)

approx. 5min

At the signposted Nevidio parking lot, follow the path over the first wooden bridge from the left tributary Grabovica (vertical canyoning tour). After a short time there is a second wooden bridge that leads over the Nevidio. Then follow the path on the right side of the stream until you reach the plaque with the historical first ascent in 1965. Here is also the entry to the canyon. For commercially guided tours a communal fee is collected from the guide.

Tour: (machine translated)

approx. 3,5h

The canyon begins with a longer walking passage interrupted by smaller downclimbs and pools. After some time you come to a 100m narrow passage (swimming channel) with clamping blocks. Here you first downclimb cleverly to the right and then swim. Shortly after the swimming passages follows a blocking with a possibility to climb through between the rocks + a small jump. Then comes a small narrow section with swimming passages, followed by a walking and descending section. At the next large blockage you look in vain for an anchor. Here you have to skillfully downclimb over the remains of bridges and boulders. From here on the canyon becomes more interesting. Several steps with possible jumps into beautiful deep pools follow without a long way. The 20m rope can normally be dispensed with. After the last 5m possible jumps in big pools the canyon opens. The tour ends at about 740m (EXIT on the rock face).

Return: (machine translated)

approx. 1h

At the place where you can read "Exit" on the rock wall, you get out of the canyon on the right at about 740m. Follow the marked path through the forest steeply upwards. After some time/meters you come to an open area with beautiful views of the mountains and deep views into the canyon. From here the path is not far to the asphalt road, which you follow until just before the bridge. Before the bridge, turn left and descend to the stream. Now follow the access path next to the stream back to the parking entry.
