Summary: (machine translated) Very beautiful canyon; check water level at stone bridge; pleasant length; deep clean pools; access not easy.		
Hydrology:		
Access: (machine translated) From Locarno --> up to Gordevio --> after the tunnel before the 2nd bridge at the house with the blue roof up on the right --> past the soccer field --> left over the bridge --> right over cobblestones to the church with fountain --> park here.		
Approach: (machine translated) From the parking lot (church) at the stone bridge check the water level --> continue through the small wooden gate --> continue left past the house, up the rock steps --> below the small chapel follow the hiking trail (marked with blue waves and arrow) always to the left --> in a bend follow the hunters path slightly downhill --> over Zulaufbach again steeply uphill to a clearing with rocks on the ground --> at approx. 515Hm follow the path through steep terrain (fixed ropes) to the stream --> get in 480Hm.		
Tour: (machine translated) At the entry there is a slide (right slide!) or C12 --> immediately followed by the next slide with 8m or C13 --> after that there are several pools and many abseiling points which can usually be jumped (depending on the water level) --> in the last third there are the higher abseiling points 20m, 45m, 30m --> the 45m can also be abseiled right. The 45m can also be rappelled over 3 trees or you can rappel in the water until after 45m there is a traverse to the 14m jump (rappeling from the tree is also possible) --> now follow an 8m and 30m rappel --> the last pools can be mastered with the rope or (jumping!).		
Return: (machine translated) Exit right directly at the church (parking lot).

We entered at high water level for practice purposes. Due to the rise in water during the tour, we decided to bypass the spot orographically to the right before the high 40. Some new anchors were drilled there so that we could get down through the bushes into the basin. Most of the pools in the upper part of the inferiore were deep enough to jump. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Gei Un amarrage défectueux peu avant la C45. Le deuxième point est ok. Le débit permettait de descendre la C45 sans prendre la déviation. Nous avons enlevé 20m de corde bloqués par une équipe précédente. Par la C30, il me manquait 2m avec une 60. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2667/observations.html>)

Amazingly grippy rock. Unfortunately, after the junction there are numerous paths that lead you astray. (machine translated)

Automatisch importiert von Descente-Canyon.com für Canyon Gei Peut-être DC- si j'interprète bien la photo d'Eldorado. C'est joli, l'eau est belle, il y a des vasques gigantesques mais peu de sauts/teb pour nous
