

Bodengo II (Boggia II)

Bodengo 2, Boggia

Create: 2023-03-09 20:51:50	Update: 2024-01-05 17:21:00	Print: 2024-12-22 04:12:30
Country: Italia / Italy Region: Lombardia Subregion: Sondrio Town: Gordona		
Difficulty: difficult	Grading: v3 a5 III	Total time: 2h55
Approachtime: 15min	Tourtime: 2h30	Returntime: 10min
Altitude entry: 920m	Altitude exit: 730m	Delta Altitude: 190m
Canyon length: m	Highest rapell: 15m	Amount rapells:
Transport: Car optional	Rock type:	drainage area: km ²
Season:	Orientation: Northeast	Best Time:
Rating: ★ 4.5 (8)	Info: ★ 2.7 (7)	Belay: ★ 2.7 (7)
Warnings: <i>New path due to construction</i> Route once again accessible thanks to collaboration with the Gordona municipality. It is compulsory to avoid the area below the landslide as it is a construction site in progress and there are dangerous metal sheets and irons. We have equipped a route with fixed ropes along ledges to circumvent the dangerous area. When you find a yellow rope on the right, follow the equipped route around the "red rocks jump".. This is valid for all the month of July.		
Specialities: Fun canyon, § Chargeable parking,		
Gear: Ropes: 2x20m (1x20m/1x40m)		
Summary: (machine translated) Very nice canyon with emerald green cold water; very well equipped; €5,- for private mountain road; 1st part easy; 2nd part medium, 3rd part very long and challenging (watch for water level!); very nice and grippy gneiss and granite rock; most of the rappels are out of the water flow, but the canyon is very aquatic in the whole! Aquapark-style fun canyon. Huge pools and many possible slides and jumps. Extremely well insured and commercially heavily trafficked. Webcam with water level: http://www.valbodengo.com/d/phone/webcam.html		
Hydrology: Webcam mit Wasserstand: http://www.valbodengo.com/d/phone/webcam.html		
Access: (machine translated) At the village Gordona you drive to the church --> left. behind the church there is a café where you have to buy a ticket for the private road for €5,- --> after that it goes right. at the church briefly up --> at the bend left --> then sharp bend (at bend) right up --> next bend left. up --> follow the road (direction Pra Prince) --> at approx. 820Hm before a sharp bend on the right, there is a parking lot on the left --> park here --> after approx. 50m there is a no motorcycle sign (on the left) with signs Mulattiera per Bodengo and Strada Carrozzabile per Bodengo (this is the way where you come up from the bridge / way back).		
Approach: (machine translated) From the parking lot up along the road you get to the entry to the 2nd part --> before the small mountain village on the left over the road bridge of Bedolina (signposted parking lot Bedolina) (entry at about 870Hm).		

Tour: (machine translated)

Walking and climbing passage about 50m. Short swimming section. Walking and climbing passage approx. 50m. Slide 3m or jump 3m. Short swimming section. Walking, climbing and swimming passages ca.100m. left. single bolts to the traversese rope. From the traversese rope R10 (left) + jump 5m or rappel 15m (left) After the pools emergency exit (nr.9, orange sign) left. glued anchor for belaying to the belaystation left R15 (left) (rope retrieval from big boulder possible) The canyon narrows. Short swimming section. Walking passage approx. 100m. Pass large boulder. Emergency exit No. 7 (left) + small inflow from the right at the abseil point R18 (right) (at the 18m only with little water jump (or slide) in deep hollowed pools possible, as an exit facilitation is at the edge of the pool on the right a single piton where a rope can be attached). Siphon (can be bypassed on the right). Jump into large pools with a small swimming section. Emergency exit no. 6. walking and swimming passage. Climbing passage ca. 200m in open canyon. 2 small tributaries left. Narrowing canyon with overflowing boulders. Climbing and swimming passages about 80m. Emergency exit no. 4. very nice passage R10(r.) in pools. r. climb up via fixed ropes. Jump or downclimb in large pools ca. 5m. Walking and climbing passage ca. 50m. Emergency exit No. 3. 50m walking and climbing passage to short narrower gorge section. R15 (left) exit on rocky ledge or in current + short swim. Walking passages to the next rappel point R8 (right) can be bypassed on the left and downclimbed. Flat walking and climbing passage. Short swimming section in small pool. Single pitons on the left for belaying to the traversese rope or rappel on the right via glued anchors into hollowed pool and to the traversese rope over the current + R8 or S8. Short swim and downclimb over smooth polished rocks. Walking and climbing passage over granite boulders about 100m. Emergency exit no. 1. rappel left. 5m over fixed ropes. Large pool. left. single glued anchors for belay to belaystation. From chain anchor R10 (left) or S10 into large pool with current. r. climb over fixed rope onto large boulder.short rappel over fixed rope to belaystation R8 (right) or S8 (or S12 from above) short swim. Bypass large boulder on the right. Short climbing passage and jump from boulder into pool. Short walking passages approx. 50m to the last rappel point R10 (left) (rope ferry advisable in case of much water). Short swimming passages to the meeting with the Pilotera (stone bridge) (approx. 730Hm).

Return: (machine translated)

At the inflow of the Pilotera (approx. 730Hm) turn left up the trail steeply to the road and right back to the parking lot.

2024-08-27 | Pepijn Hoeksema |★★★★☆|📖★★★★|📍★★★|🌊 Low |👍 Completed

We completed all three sections of Bodengo in one go. The low water level made the entire descent quite easy. It took us 8 hours from start to bottem with a team of 5 people. The anchor points were generally in good condition, though in Bodengo 3, finding them required a bit more effort. There are also fewer anchor points in this section, which sometimes necessitates climbing down. Fortunately, the rock provides plenty of grip. Overall, I enjoyed Bodengo 1 and 2 the most. The "Slide of Death" in Bodengo 3 was exciting, but there was also a lot of walking over large boulders, which made it a bit tedious at times. If I had to choose between the Bodengo Integral and Bares, I would go with Bares!

Nice fun canyon Mostly open terrain with many emergency exits The construction work is completely finished and everything is back to normal Hitchhiking goes well (machine translated)

2024-08-11 | SandroS |★★★★☆|📖|📍★|🌊 Normal |👍 Completed

Everything ok (machine translated)

2024-08-02 | System User | |📖|📍|🌊 Normal |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Bodengo For Bodengo 2, Work on the road looks complete, but the deviation remains recommended because there still is a lot of metal and parts of the road in the canyons. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2533/observations.html>)

2024-07-04 | Urs K. |★★★★☆|📖★★★★|📍★★★|🌊 Normal |👍 Completed

In July, MO-FR from 8:30-12:00 and 13:30-17:00, the road between the start/exit of Bodengo 2 is closed (the slope stabilization above the road is currently being done, see photo). The diversion in the canyon with the yellow rope (information also at the changing cabins) cannot be overlooked at rappel #4. Apart from the place where it is closed, everything is superiore! (machine translated)

2024-07-02 | Patrik |★★★★☆|📖★★★★|📍★★★|🌊 Low |👍 Completed

Until the exit in July, the road to the entry is only passable at midday (<https://www.comune.gordona.so.it/hh/index.php>). We therefore parked at the exit of Bodengo 2 and then walked up to the entry of Bodengo 1 in just under 40'. The yellow rope for bypassing the rockfall is clearly visible on the right-hand side. A new fixed rope could be installed at the first jump and at abseil point no. 3. Otherwise all jumps and slides are doable. (machine translated)

2024-06-24 | System User | |📖|📍|🌊 High |👍 Completed

Automatisch importiert von Descente-Canyon.com für Canyon Bodengo Gros débit qui ne pose pas de problème si on connaît le canyon, sûrement plus problématique à vue. Il y a eu un gros éboulement sur la route d'accès avec énormément de débris dans le canyon. Les travaux semblent finis et la route semble ouverte normalement. Équipement ras, il semble qu'on soit les premiers à passer de la saison vu les feuilles dans les broches (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/2533/observations.html>)

2023-08-05 | Patrick Summerer |★★★★☆|📖★★★★|📍★★★|🌊 Normal |👍 Completed

Many jumps possible, in the creek bed partly very slippery (machine translated)
