<b>Summary:</b> (machine translated) Varied descent in wild scenery		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) On the Corte - Ponte Leccia link road, about halfway, is Francardo. From here, take the D 84 in the direction of Calacuccia, entering the Golo canyon Scala di Santa Regina. 7 km after passing the Ponte Castirla, you come to the bridge over the Falconaia and have a view of the high waterfall (if water flows). 600m further we come to the bridge over the Ruda. Park the lower car here, unless parking is prohibited in the Golo canyon at this time (see above under "Notes"). With the second car continue for 2.3 km on the D84 and then turn right up to the village of Corsica. Park at the church.		
<b>Approach:</b> (machine translated) From the parking lot, go up to Costa, where a path leads eastward in the direction of the power line; pass the first junction to the left, later walk a few hundred meters parallel to the power line up to the height (898 m a.s.l.). On the other side, descend through the forest to the old arched bridge Ponte Sutanu (Sottano) over the Ruda River, where the entry is.		
<b>Tour:</b> (machine translated) Versatile descent in attractive surroundings, some jumps and slides possible. Also suitable for beginners.		
<b>Return:</b> (machine translated) It is at the old Genoese double arch bridge. You then follow the historic mule track 'Scala di Santa Regina' over this bridge in a southerly direction and reach the starting point again at the car at the top of Corsica in about 1½ hrs. along this scenic route. It would also be possible that only the driver gets the car, but the others descend with the luggage to the D84 and let themselves be picked up there.
