<b>Summary:</b> (machine translated) South facing alpine rapell canyon		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) We leave the A8 (Bern - Interlaken) via exit 29 - Brienz, drive through Schwanden away from the lake up to Oberschwanden. About 60m before this hamlet the road crosses the Schwanderbach. A few meters before the bridge we can park our car on the left side of the road (P).		
<b>Approach:</b> (machine translated) Beyond the bridge the hiking trail begins. After about 35 minutes we come across a road again, walk on it for about 200m to the left and then follow the path uphill again. \n\nIf we want to walk only the lower - more interesting - part, we continue on the road to the left to the bridge and get on there. \n\nIf we continue climbing, however, we come across a road again. Turning left, we come to two bridges. At the second (northwestern) bridge we get on (E).		
<b>Tour:</b> (machine translated) In the first part, 8-10 rappels and a longer walk to the first road bridge await us. Then another longer walk and downclimb before reaching the most interesting part, a vertical with 5-7 rapel. After another vertical gorge part (8m-25m-12m) we descend in the stream to the road bridge.		
<b>Return:</b> (machine translated) Pass under the road bridge and then right out to the car.

Automatisch importiert von Descente-Canyon.com für Canyon Schwanderbach Équipement monopoint en bon état sur la première partie. Nous n'avons pas vu de point sur le deuxième obstacle (amarrage naturel sur arbre en hauteur en rive droite attention acces raide et glissant).Très beau enchaînement de cascades sur la deuxième partie après la passerelle. Les plus grandes longueurs sont en relais chaîné en bon état. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/23204/observations.html>)
