Automatisch importiert von Descente-Canyon.com für Canyon Ruisant Sente complexe à suivre jusqu'aux premières mains courantes. le lien suivant nous bien été utile.Nous avons laissé 20 m de corde (rouge orangée PETZL-Club) dans la deuxième rongeüre de la C 130. Une première en 30 ans de pratiques !! (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/215/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Ruisant Approach to take seriously: sometimes hard to navigate, long (1h40 for us at a moderate but sustained pace), steep, slippery, exposed... big thank you for the fixed ropes!The mains courant anchor of the second rappel is flattened. We could walk to the rappel anchor reaching with a SAR though. Apart from this the canyon is very well equipped!For the return, rather than randomly traversing through field and forest, we found it a lot more convenient to use the tracks and unpaved roads that are there, even though it's a bit longer distance wise. Great canyon if you don't mind the approach, a bit underrated perhaps (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/215/observations.html>)

Automatisch importiert von Descente-Canyon.com für Canyon Ruisant Vu la veille en passant en voiture en GD / TGD, il avait déjà bien baissé. Tout de même très sympa avec ce bon DC. Le dernier relai de la grande était bien arrosé. Très bien équipé. Les cordes fixes sont en place sur la marche d'approche.
