<b>Summary:</b> (machine translated) Short, watery gorge with attractive slide		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Nice, take the N 202 up the Var for approx. 29 km to Plan-du-Var. Shortly after this village, turn right onto the D2565 into the Vesubie valley. 14 km after the turn-off you reach the hamlet of Le Suquet. Park your car here.		
<b>Approach:</b> (machine translated) Return on the D2565 over the Vesubie and 200 m further on, at signpost no. 127, turn left up into the Vallon de l'Infernet. The path climbs 250 meters in altitude, then runs horizontally on the wooded slope above the canyon into the valley. After about 40 minutes (10 minutes after the start of the horizontal section), you come to a fork in the path on the left (cairn). Here we descend to the Infernet.		
<b>Tour:</b> (machine translated) After an open stretch of river you come to the gorge, in the course of which you will find a 12m slide that can be climbed again on a fixed rope. Unfortunately, the river is polluted, among other things by a car wreck and other pieces of metal.		
<b>Return:</b> (machine translated) At the mouth of the Infernet into the Vesubie, you wade through the river and quickly reach the car on the other side.

Very beautiful canyon, well-maintained and signposted access. Unfortunately, there is no parking at the restaurant (clear prohibition signs) but a side road a few hundred meters downstream is just as good. Unfortunately, the water in the canyon was still milky due to the high rainfall in June, but it didn't bother us during the hike. The flow rate was significantly higher than normal, but no problem thanks to the excellent, flood-proof installations (fixed rope bypasses everywhere where necessary). The slide is my favorite so far. Perfectly smooth harness plate with an ideal incline. We have enjoyed it several times! :) (machine translated)
