Summary: (machine translated) Low water forest gorge		
Hydrology:		
Access: (machine translated) After bypassing Geneva on the Swiss N 1 after the national border, take the A 401 for about 2.5 km in the direction of Lyon, Dijon, Paris, then at the interchange take the A 40 in the direction of Lyon, Dijon, Paris. After another 23 km, take exit 11 (Bellegarde Center) in the direction of Fragny, Seyssel. 6 km further, at the exit of Mons, turn right on the D 992 and go through Seyssel and Culoz (another 23 km), where you continue on the D 904 (direction Bourg-en-Bresse) for an additional 8.5 km until Artemare (total 62 km from the border).\nFrom here we continue on the D904 in the direction of Amberieu-en-Bugey. We reach the village of Virieu-le-Grand. Here we turn onto the D53 in the direction of Thézillieu. For about 10 km we go uphill in bends, then we come to the plateau where the road crosses the brook. Park the car here.		
Approach: (machine translated) Next to the road bridge directly into the stream.		
Tour: (machine translated) Without water flow, at best something for collectors.\nBelow the exit is a powerful karst spring that feeds a waterfall worth seeing. This attractive passage, however, is not frequented - probably forbidden in order not to reduce the water quality and to protect the sensitive water body (mosses, sinter).		
Return: (machine translated) After the C 9 that follows the C 17, turn right onto the forest road. Follow it until the tarred road, then turn right about 500 m to the car.		
Coordinates: Canyon Start 45.8565 5.6229 Canyon End 45.8551 5.6289
