Gear: Ropes: 2x70m (2x50m)		
Summary: (machine translated) Small catchment area; standings need improvement; nice, vertical canyon without longer walking passages; 70m waterfall can be subdivided; clean water; can be combined well with Rio Malimberg (recommendation: first Rio Pliz, then Rio Malimberg); 3mm neoprene is usually sufficient.		
Hydrology:		
Access: (machine translated) From Hotel Carnia take the SS13 in the direction of Tarvisio. At the exit of Chiusaforte turn right towards "Sella Nevea"/Raccolana. Follow this road straight on, go through the avalanche gallery and continue straight on. About 4 km after the avalanche gallery you will reach the village of "Saletto". Here you turn left (over the bridge) towards "Chiout Cali". At the entrance of the village you cross "Rio Malimberg". Immediately after the bridge park on the right (next to the power house).		
Approach: (machine translated) 35-40min At the power house after the bridge you can already see the hiking mark 641 (Attention: in the Tabacco map the hiking trail is already marked before the bridge. But this is wrong!) Just behind the power house you follow the access road up to the 1st house. The path goes between the houses until you reach asphalt again. From now on the path is clear and you follow this (641) then about 30min steeply through the forest, past the old wooden bridge (Rio Malimberg) to Rio Pliz. At the entry at 700Hm you will find a wooden sign with the inscription "Riu Plis".		
Tour: (machine translated) 2-2.5h The Rio Pliz is a very open rappel canyon with a beautiful exposure. At the rappelling points you don't have much difficulty due to the mostly low water flow. At the entry of Rio Pliz inferiore you start with a small downclimb/slide and you are immediately in front of the highest point (70m). The belaystation is OK but on the left side exposed. If you don't have 70m of ropes, you can divide the abseil into 20+50m. After that, it continues vertically without much trail until the end. Some nice pools provide in between for the welcome cooling before you stand before the stone bridge / exit at about 570Hm.		
Return: (machine translated) About 15min Arrived at the stone bridge at 570Hm, you get out of the canyon on the right. From here follow (right) first the forest road and then the asphalt road to the parking lot at the bridge.

Automatisch importiert von Descente-Canyon.com für Canyon Pliz Approach for a hiking path is in a very bad shape.We did only the lower part.It's a very nice and sunny canyon. (Quelle: <https://www.descente-canyon.com/canyoning/canyon-debit/22128/observations.html>)

Considering that the access is supposed to be a hiking trail, it is in very poor condition. According to the pictures, the Pliz has as much water as it did at the exit in April. We really enjoyed the canyon. (machine translated)

Currently normal water level. All stands in good condition. If no stand available, can be rappelled from the tree. We have changed a muddy loop (last rappel before the bridge). Approach is growing again a little bit. (machine translated)
