<b>Gear:</b> Ropes: 2x30m		
<b>Summary:</b> (machine translated) Rappel canyon  Water level: <a href="http://canyoning.pirineos-pyrenees.eu/barranco/2">http://canyoning.pirineos-pyrenees.eu/barranco/2</a>		
<b>Hydrology:</b>		
<b>Access:</b> (machine translated) From Jaca we drive on the N-330 about 17.5 km to Canfranc. 600 m after the center of the village we come to the bridge over "our" stream and park the car here.		
<b>Approach:</b> (machine translated) We go back again 1200 m on the N-330 in southern direction and then take the trail GR 13.1 on the right. It is the old path to the hut Majada de Gabardito (cf.: <a href="http://de.wikiloc.com/wikiloc/view.do?id=9326201">http://de.wikiloc.com/wikiloc/view.do?id=9326201</a> ). We come across a forestry track and follow it to the pastures of Gabardito. We see the Rifugio de Gabardito, leave the forest track to the right and now follow trail tracks in a northerly direction to reach the streambed (entry). There is an alternative ascent on the orographic. left side of the canyon. It starts at the bridge and goes pretty much in the fall line up to the orographic left side creek (entry).		
<b>Tour:</b> (machine translated) Varied and interesting descent. About 20 rappel, some of them over the walls of slide brakes.		
<b>Return:</b> (machine translated) At the bridge out to the road.
