Season:	Orientation:	Best Time:
Rating: ★ 2.5 (2)	Info: ★ 2 (1)	Belay: ★ 2 (1)
Specialities:		
Gear:		
Summary: (machine translated) Steep tour with several, higher rappel. Worthwhile after rains		
Hydrology:		
Access: (machine translated) Exit: From Kranskja Gora follow road 201 in the direction of Jesenice. After Gozd Martuljek you pass two signposted parking lots. About 300m after the second parking lot you can park just before the bridge over the mostly dry stream. \n\nEntrance: Follow the road for about 700m, then turn left onto a sand road. Follow this sand road over a hairpin bend, then park just before an overgrown forest road on the right. Space for 3 cars.		
Approach: (machine translated) Follow the overgrown forest path to its exit, then continue along the cross-cutting path. This path crosses exposed in places but always clearly visible until above the large waterfall. Cross the stream and stay above the rock walls along indistinct tracks until you reach a flat saddle where you find a clear transverse path. Follow this path to the right to the streambed.\n\nIntermediate entry. Just before you cross the Strmi ditch for the first time, you can also climb to the right over a largely pathless ridge until you can cross back to the streambed on the left. You reach the canyon after the first 3 rappels.		
Tour: (machine translated) After a short walking passages with a small slide you stand in front of a larger clamping block.\n\n* 5m rappel from tree stump or rock head right\n\n* 10m rappel or downclimb from anchor right\n\n* 30m rappel over several pools. Anchor on right\n\n\nintermediate entry. Start of a short gorge \n\n* 10m rappel under clamping block. Hook for traverse rope right back\n\n* 6m rappel from anchor left\n\n* 25m rappel from chain right\n\n* 7m rappel from anchor left\n\n\nWalk with a 10m rappel from sling around root to traverse with approach climb\n\n* 6m downclimb in rock channel\n\n* 5m rappel from tree with sling right\n\n* 15m rappel from 2 anchors left under edge. Fixed ropes present\n\n* 30m rappel from chain right\n\n* 15m rappel from chain left\n\n* 60m rappel from chain left, beware of falling rocks. \n\n* 35m rappel from anchor right on tape\n\n* 35m rappel from anchor left, about 4m below three small trees.\n\n\n		
Return: (machine translated) Cross out on the orographic left slope and descend via a short scree gully. In the area of a high seat begins a hunters path on the left slope that leads back to the car.		
Coordinates: Canyon Start 46.4867 13.8877 Parking at Exit 46.4783 13.8868 Parking at Entry 46.4777 13.8972 Canyon End 46.4818 13.8873

Normally this is a dry gorge and only intended as a canyon tour after rainfall. We walked the canyon with outdoor equipment when there was little water. Only splashing water and no lake to swim in. The main waterfall at the end was dry. All anchors in good condition, 2 tree abseils, 1 block abseil, didn't find an anchor point. We had the drill with us, but it wasn't needed. I think this canyon is great even when it's almost dry. (machine translated)
