Hydrology:		
Access: (machine translated) Leave the A-40 freeway from Geneva to Lyon, after the long tunnel at Nantua, at exit no. 8 and take the A-404, which passes Oyonnax, joins the D-31 and continues north to Dorton. From here, continue on the D-435 towards St. Claude and upstream along the Bienne. 8 km after Dorton the road branches, here turn left onto the D-27 and drive in the direction of Moirans. After about 200 m, take the first left again onto the D-356(-357 ?) in the direction of Douvre. At the first hairpin bend, park your car at the bottom (first). Continue straight on for about 550 m to the bridge over the Goulette. From the parking place of the car parked here below now up the hill in the direction of Douvre. 2 km from the lower parking lot, the second car should be parked on a path leading off to the right - as well as possible.		
Approach: (machine translated) From the upper parking lot 150 m further in the direction of Douvre, a path then leads down to the left - or pathless - to the entry.		
Tour: (machine translated) Open rappel canyon with beautiful tuff cascades; the more water, the more attractive, well suited for beginners. No possible jumps, no swim.		
Return: (machine translated) Just off the bridge by the lower parking lot.
